

## NEW PRODUCTS

### Paint Bucket

The Speed Bucket™ from **Wooster** allows painters to quickly brush and roll with one bucket. This medium-sized pail accommodates all covers 7 inches or smaller. A powerful earth magnet inside the back of the bucket holds a brush by its ferrule. Molded underneath the plastic, it won't rust or trap paint. At the front of the pail, a notch keeps a roller frame in place so it won't slide around when not in use. The built-in grid is 7½ inches wide with aggressive ribbing for easy loading. **RC# 123**

### Slider Window

#### The Bilco Company

introduced its Series 660 Utility Slider Window to its pour-in-place foundation windows. The window features all vinyl construction and a design ideal for masonry applications. It consists of an energy

efficient window unit and a pour-in-place buck that is fully assembled and ready for installation. The window unit features insulating glass that is equipped with Fin-seal® weather-stripping and low-E glass. It will not rot, rust, or retain moisture and features a heavy-duty locking mechanism and an insect screen with aluminum frame and fiberglass mesh. **RC# 127**

### Grassroad Paver Foundation

**NDS, Inc.** has created a green alternative for landscapes with the TuffTrack grassroad paver. The easy to install TuffTrack forms a solid foundation with paver sheets of honeycomb-shaped cells equipped with a tongue and groove latching system, providing a quick and secure connection between each sheet. This unique design allows for up to 98,500 pounds of vehicular traffic to drive over turf areas without putting pressure on the roots of the grass or compromising the condition of the landscape. **RC# 124**

### Sliding Casters

**Hickory Hardware's** Madico Super Slidex sliding casters are easy to install and help move appliances and furniture in any direction. The sliding casters are specially designed for use on multiple flooring surfaces, including uneven surfaces, and are ideal on carpet. Available in a range of sizes and shapes for moving furniture and appliances or for mounting on chair legs, Super Slidex products include adhesive tape or screws as needed, and come in neutral gray and brown to blend in with wooden surfaces. **RC# 125**

### Hole Saw System

**Bosch Power Tools** and Accessories has introduced its new Quick Change Hole Saw System, offering users more convenience and versatility than ever before. The quick-change system enables users to easily change hole saw cups in seconds and move effortlessly between applications, sizes, and materials. **RC# 126**

### Slip-on Boot

**Intromark** introduces its Cleanboot™ footwear that slips over work boots to protect carpeting and flooring. The Cleanboot™ eliminates the need for construction workers, plumbers or other workmen to take off their boots or shoes when entering customers' homes or businesses. It is made of neoprene and is lightweight, flexible and slips on and off easily. The boots are reusable and can be worn many times. **RC# 128**
